

sdmay19-34: Context-Aware Clothing Recommendation

Week 19 Report

April 5 - April 11

Team MembersEthan Wieczorek — *Lead Developer*Will Parr — *Developer Operations*Christian Ehlen — *Quality Assurance Lead*Nicus Hicks — *Report Development Lead*Tyler Witte — *Software Project Lead*Nickolaus Eaton — *Product Manager***Summary of Progress this Report**

We spent most of the week styling and perfecting the front end code that we have already written. As well as writing unit tests and finishing the last functionality of the app.

Pending Issues

Throughout our unit testing we have issues with the necessity to change some code in order to make testing a possibility on some of the more modular component.

Plans for Upcoming Reporting Period

Upcoming, the pages that we've built for the app need to be more fleshed out and usable. This means merging the closet with the camera, fixing the login, and making navigation bars more effective.

Individual Contributions

Team Member	Contribution	Weekly Hours	Total Hours
Ethan Wieczorek	<ul style="list-style-type: none"> Fixed the trip recommendations Added the display screen for a completed trip Added dress code to the trip recommendation Started unit testing on outfit recommendations 	15	195
Will Parr	<ul style="list-style-type: none"> Firestore Image Storage Pushing user data to backend Changed Routing 	8	187
Christian Ehlen	<ul style="list-style-type: none"> Continued application styling 	5	113.5
Nicus Hicks	<ul style="list-style-type: none"> Changed value selections on Camera and Closet pages 	5	115.5
Tyler Witte	<ul style="list-style-type: none"> Backend Troubleshooting 	10	113.5
